

HABUMUGISHA Eric

Software Engineer | Full Stack Developer

Kigali, Rwanda | ericofla1@gmail.com | +250 780 439 527 | LinkedIn: Eric H Oflla | GitHub: EricHOflla

PROFESSIONAL SUMMARY

Passionate and results-driven Software Engineer with extensive experience in architecting and delivering modern, scalable web and mobile applications. Proficient in React, Node.js, Django, Laravel, Flutter, TypeScript, Tailwind CSS, and relational/NoSQL databases with a strong focus on clean code, performance optimization, and intuitive user experiences.

TECHNICAL SKILLS

Frontend: React, Next.js, Flutter, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

Backend & APIs: Node.js, Express, Django, FastAPI, Laravel, REST APIs, GraphQL

Databases & Cloud: PostgreSQL, MySQL, SQLite, MongoDB, Redis, Docker, Vercel, AWS

Tools & Practices: Git, GitHub, CI/CD, Agile/Scrum, Webpack, Testing, UI/UX Prototyping

WORK EXPERIENCE

Full Stack Developer | Freelance & Consulting

2023 - Present

- Designed and developed customized web and mobile solutions for clients with modern frameworks and responsive UIs.
- Optimized backend APIs and frontend bundle sizes, improving load speeds and SEO rankings.
- Integrated secure third-party payment gateways, authentication systems, and cloud storage integrations.

Software Developer | Tech Solutions

2022 - 2023

- Collaborated on multi-tier enterprise web applications using React and Django/Node.js.
- Built modular, reusable components and implemented automated CI/CD deployment pipelines.

EDUCATION

Bachelor's Degree in Computer Science / Software Engineering

UNILAK (University of Lay Adventists of Kigali)

Comprehensive coursework in Software Engineering, Algorithms, Database Management Systems, Computer Networks, and System Architecture.

FEATURED PROJECTS

Portfolio & Web Platform: Fully responsive developer portfolio built with React and Tailwind CSS.

E-Commerce & Management Systems: Full-stack systems featuring REST APIs, role-based auth, and automated reporting.
